CITY OF HAMBURG NOTICE OF PUBLIC HEARING VARIANCE REQUEST

Notice is Hereby Given that the Hamburg City Council will hold a Public Hearing on January 9th, 2018 at 6:45 p.m. at the Hamburg Community Center at 181 Broadway Ave., Hamburg, MN.

The reason for the Public Hearing is for the request by Steve Trebesch for a variance from the front and side setbacks for Accessory Structures (2) on PID 45.0282500 (Railroad Street) in the Downtown Business Mixed Use District. The Downtown Business Mixed Use District of the Hamburg City Code requires principal structures be setback 20 feet from the front lot line and 5 feet from the side lot line. Mr. Trebesch is requesting a 2 foot variance from the front lot setback and 5 foot variance from the side lot setback.

A Public Hearing for a Conditional Use Permit to allow multiple Accessory Structures (Shipping Containers) on this parcel was held on December 12, 2017. This meeting was continued to January 9, 2017 at 7:00. Hamburg Zoning Code requires a Conditional Use Permit for accessory structures other than a private garage in the Downtown Business Mixed Use District. City Council Meeting to follow the continued hearing.

If you have any questions or concerns about the hearing feel free to attend, call the City Offices at (952) 467-3232, email the City Office (cityadmin@cityofhamburgmn.com) or write in advance to the City of Hamburg, P.O. Box 248, Hamburg, MN 55339.

Re: Steve Trebesch Storage Container CUP

I apologize for missing your earlier email on this application. I'm in Kansas City but have access to all relevant materials. I have several observations based on the materials forwarded to me:

- 1. The property is zoned B Downtown Business Mixed Use District.
- 2. A CUP is required for accessory structures other than "private garages."
- 3. The B District requires 20' front yard and 5' side and rear yard setbacks.
- 4. The drawing submitted illustrates 18' front yard, 0' side yard and 30' rear yard setbacks.
- 5. The CUP cannot be issued as requested without variances (exceptions to 20' front yard setback and 5' side yard setback).
- 6. It appears the storage building could be placed on the property without variances, based upon the drawing submitted.
- 7. The County GIS website appears to illustrate a front yard setback for the existing container at less than 18' and the container appears to cross the south lot line and lies partially on the adjacent property. It is my understanding Mr. Trebesch owns the parcel to the south, but the GIS website indicates it is located in Young America Township.
- 8. A survey is necessary to verify where the property lines are and what setback standards may or may not be met.

There appear to be several alternatives available to issue a CUP for the proposed accessory structure(s):

- A. Locate the accessory structure(s) within all setback requirements.
- B. Request and receive variance approval for setback modifications, provided the structure(s) do not cross the south property line.
- C. If the structure(s) cross the south property line, the applicant must combine the parcels, receive any necessary variances, and the CUP must be contingent upon approval by Carver County (zoning authority for Young America).
- D. Combine the parcels, annex the property into the City precluding the application of Carver County zoning standards, and subsequently apply to the City for any necessary variances.

It may be appropriate to hold the public hearing as scheduled and recess the proceeding to another date until an appropriate alternative is determined.

Trebesch CUP December 11, 2017

Page 2 of 2

The City must be conscious of the statutory 60-day period for action. The City may extend that period to 120 days with written notice to the applicant (prior to expiration of the initial 60 days). If pursuit of the alternative for approving a CUP takes more than 120 days, the applicant may extend the review period. If such extension is not granted by the applicant, the City must act on the application within 120 days.

Please do not hesitate me if you have any additional questions!

LG220 Application for Exempt Permit

An exempt permit may be issued to a nonprofit organization that:

- conducts lawful gambling on five or fewer days, and
 awards less than \$50,000 in prizes during a calendar
- vear.

If total raffle prize value for the calendar year will be \$1,500 or less, contact the Licensing Specialist assigned to your county by calling 651-539-1900.

Application Fee (non-refundable)

Applications are processed in the order received. If the application is postmarked or received 30 days or more before the event, the application fee is **\$100**; otherwise the fee is **\$150**.

Due to the high volume of exempt applications, payment of additional fees prior to 30 days before your event will not expedite service, nor are telephone requests for expedited service accepted.

Carver County created a "One-Stop" <u>Land Records</u> Department to Streamline Property Transfers

The Carver County Board approved a Property & Financial Services Division Re-Org which combined Land Administration staff from Taxpayer Services with Property Records staff from the Recorders Office.

The <u>Land Records</u> Department will continue to maintain the County Recorder's permanent, public repository of land records and will start processing land transfers such as plats, lot splits, deeds and mortgages. Combining both responsibilities into a "One-Stop" Department will improve customer service by streamlining the land transfer process as well as increasing county staff productivity.

Electronically submitted documents can now be recorded the day they are received. Credit cards are accepted for payment and separate checks are no longer required to process recording/conservation fees or deed/mortgage taxes. Property tax payments still need to be paid separately from land transfer payments.

The new Department processes all legal instruments that convey land, such as warranty deeds, quit claim deeds, plats and update the torrens certificates and maps to reflect the process. The staff processes land combinations, splits of property, vacation of roads, and annexation of land, calculates and collects state deed tax, mortgage registration tax and reviews all certificates of real estate value. The Land Records Manager administers County and Joint Ditch assessments as well as the tax forfeiture process.

In November, 2017 a Kaizen Event with Land Records, GIS, the County Surveyor and City of Waconia planning staff was held to streamline "County/City Land Development Data Sharing". This process needs to be improved because of an emerging public safety issue driven by the County's Next Generation 911 emergency call center relying on street addresses in GIS. The goal of the Kaizen Event is to develop a land development data sharing template so City and County staff can exchange PIDs and street addresses sooner. Ideally, this template can be rolled out to other Carver County cities & townships over the next several years.

Beginning January 1st, 2018, Subsurface Sewage Treatment System forms (SSTS) will be required to be submitted for all Point of Sale (POS) transfers to be recorded.

The County's land records have been integrated with GIS which will greatly simplify and improve accessibility for the public.

By the end of 2018, historical land records dating back to the mid 1800's will become electronically accessible to the public in the same format as recent land transactions.

Confidence in public land records is critically important to our nation's economy. Property ownership is the foundation of wealth and a key component to capitalism in the United States. Because of the confidence the financial institutions have in public land records they issue loans that allow the purchase of property, maintenance of property, and funding of college education or other dreams. Carver County's new "One-Stop" Land Records Department will strengthen the county's ability to efficiently and effectively manage future tax base growth as well as changes in the real estate industry.

The new Land Records Department Manager is Kathy Smith. She is the best person to contact for questions/problems/suggestions related to plats, lot splits, ditches, tax forfeiture, deeds, mortgages, etc. at 952-361-1972 or ksmith@co.carver.mn.us.

The new County Recorder/Registrar of Titles is Kaaren Lewis. She is the best person to contact for questions/problems/suggestions related to Abstract property. Her contact information is 952-361-1920 or klewis@co.carver.mn.us.

The new Senior Recorder is Connie Smith. She is the best person to contact for questions/problems/suggestions related to Torrens property. Her contact information is 952-361-1935 or casmith@co.carver.mn.us.

RE: Electronic Archiving of Residential, Commercial, and Industrial Plans

Dear Municipal Officials,

Local codes and most charters make the municipal Clerk responsible for preserving all records of a municipality. State law requires all officers of the State to prepare and preserve all records necessary for a full and accurate reflection of a municipality's official activities.

Some records have continuing value and must be maintained permanently, but other records may be destroyed after a certain period of time. State law prescribes the procedure that is to be followed to dispose of government records. Under State law, a municipality may dispose of government records according to the municipality's approved records retention schedule.

It is assumed that your jurisdiction has adopted a records retention schedule, setting the list of the municipality's records and the minimum length of time each type of record should be kept. The retention period listed in the records retention schedule applies only to that version of each record that has been established by the municipal Clerk as the official version, regardless of whether the record is maintained in paper, microfilm, or electronic format. It is the municipality's responsibility to identify what is the official version of the government record.

Storage of government data is costly due to the physical storage units it requires and the space it consumes. Building plans, especially, take up a great deal of space. Minnesota Clerks and Finance Officers Association (MCFOA) guidelines recommend that residential building plans be retained for one year after completion, and that commercial and industrial plans be retained for 15 years. (Duplicate copies of plans of any kind need not be maintained.)

However, based on our experience, MNSPECT recommends retaining house plans for a longer period of time. Having plans on file can be of significant long-term value for many reasons. An
